Work Experience

Front-End Developer

Aphora Health | Cary, NC | January 2025– Present

A Junior Front-End Developer role with Aphora Health, where I collaborate with a cross-functional team of engineers to develop and maintain web applications. Tech Stack: React.js, Node.js. Key contributions include:

- Help transform our website into a working Progressive Web Application (PWA)
- Contribute to front-end performance and fixes to improve code efficiency

- Participated in daily stand-ups and bi-weekly sprint planning sessions, consistently delivering features on schedule

Front-End Developer Intern

Aphora Health | Cary, NC | May 2024 – December 2024

- Developed and maintained responsive WordPress websites, improving site performance and user experience.
- Completed weekly front-end development tasks using HTML, CSS, and WordPress.

Electrician Assistant

Justin Langdon Electrical | Benson, NC | April 2022 – July 2022

- Assisted in electrical installations and repairs, gaining hands-on experience with tools and techniques.
- Worked closely with a team to ensure effective communication and task completion.
- Developed problem-solving skills while troubleshooting electrical issues.

Warehouse Worker / Customer Service

Dewayne's | Smithfield, NC | November 2020 – January 2021

- Managed inventory and organized warehouse stock to improve efficiency.
- Priced and prepared merchandise for store display, ensuring accurate labeling.
- Collaborated with a team to complete daily warehouse operations and meet customer demands.

Projects

Weather Dashboard Application (Project Lead)

- Led a team-based development project, managing task delegation, documentation, and front-end development.
- Developed a Flask-based web application to provide real-time weather data.
- Integrated PirateWeather API to display hourly and weekly forecasts.

Tech Stack: Flask, HTML/CSS, JavaScript

Progressive Web App (PWA) Development

- Converted the Aphora Health website into a PWA using React.js and Capacitor.
- Enhanced mobile performance and offline capabilities.

Tech Stack: React.js, Capacitor, HTML/CSS, JavaScript

Certifications

- Certiport Information Technology Specialist in Python – December 2023
- Java Programming – Wake Technical Community College

Professional Development

- Front-End Developer Career Path – Scrimba.com (In Progress)
